

REGIONAL UTILITIES – DEVELOPER PLAN REVIEW PROCEDURE

This document shall serve to detail Regional Utilities' Procedure for Plan Review, FDEP Permit Application endorsement and Project Certification.

- **Approval of Proposed Construction Plans – (As per Construction Specifications)**
 - An electronic (pdf file) copy of the plans and CAD file shall be submitted for review. Plans shall be submitted via email to engplanreview@regionalutilities.net.
 - Once the review process has been completed Regional Utilities will require one (1) hard copy set of the signed and sealed plans, CAD file and one (1) electronic (pdf file) copy of the signed and sealed approved set of plans and all documentation.
 - 1 electronic (word doc) legal description of the project property.
 - 1 set of FDEP water and wastewater permit applications signed by the engineer and the permittee.
 - 1 set of lift station calculations and pump curve data (if applicable).
 - 1 set of FDEP wetland permits (if applicable).
 - A review fee for the set amount (see attached review schedule).

Regional Utilities will review the plans and have review comments emailed out within 2 weeks of submittal date. If plans are not approved, revised plans will be requested for second review.

Following receipt of a letter confirming plan approval, a Developer Agreement must be executed and/or associated impact fees paid. A pre-construction meeting shall be held between the contractor, developer, engineer of record, Regional Utilities, and Walton County before construction commences.

- **Release of FDEP Water and Wastewater Permit Applications**

Regional Utilities will sign and release all FDEP permit applications immediately upon the execution of a Developer Agreement and/or payment of impact fees. Impact fees shall either be paid in full or a Developer Agreement executed, which requires 10 percent down payment by the developer. FDEP permits must be issued prior to scheduling the pre-construction meeting.
